

Simplifying Ownership

EFFICIENT DRYING. An axial airflow drying process ensures heated air passes through the load at the optimum point in the tumble process. Owners benefit from lower gas costs, but the real benefit comes from faster customer turnover and, as a result, greater profit potential.

TIME SAVINGS. With two coin boxes, the stack needn't be emptied as often as competitive models with one coin box. A large, easy-clean lint filter continues the time savings theme.

PEACE OF MIND. Our commitment to you comes with a 3-year limited parts warranty.

DAMAGE RESISTANT DESIGN. Drywall screws and like-size fasteners that fall out of laundry items can cause extensive damage to the inside of the tumbler cylinder. IPSO's patented oblong perforations, however, serve as a protection against such destruction, enabling the screws to pass harmlessly through and exit the cylinder.

SIMPLE CONTROLS. The stack's simple micro control makes it easy to set and adjust vend prices.

Simplifying Customer Satisfaction

FAST. Drying tumblers are a vended laundry's last chance to make an impression on customers. Inefficient, slow units will translate into customers waiting for a dryer to become available and, as a result, wondering if a competing business in the area would offer less waiting around. IPSO's 30 lb stack helps make sure customers move swiftly through the drying process — keeping customers happy and coming back.

SIMPLE CONTROLS. IPSO's user-friendly control makes it easy for customers to start the machine in three simple steps. LEDs display when the machine is on a drying or cooling cycle. The digital panel also shows customers how much time is on their cycles.

EASY LOADING. Clients love the large door opening, which makes loading and unloading a breeze.

THE BOTTOM LINE. Customers come to your store with one goal: to get in and out quickly. Equipping your laundry with IPSO 30 lb stack units ensures they'll find tumblers available. From there, it's simply a matter of our tumblers' speed and efficiency moving them out the door faster than your competition.

IPD30 - 2 X 30 lb Tumbler*

* IPSO also offers 25, 30, 35, 50, 55, 75 lb Single Tumblers and 45 lb Stack Tumblers

IPD 30 lb Stack Tumbler Specifications

IPD30ST

Capacity - lb (kg)	2 x 30 (13.6)	
Height - in (mm)	76 1/4" (1,937)	
Width - in (mm)	31 1/2" (800)	
Depth - in (mm)	42 7/8" (1,089)	
Net Weight - lb (kg)	544 (247)	
Shipping Weight - lb (kg)	582 (264)	
Cylinder Dimensions	Diameter - in (mm)	30" (762)
	Depth - in (mm)	26" (660)
	Volume - cu.ft. (liter)	10.63 (301)
	Airflow - cfm (liters/sec.)	400 (189)
Plumbing Connections	Gas Models	1/2" NPT One manifold gas connection
	Steam Models	3/4" NPT
Energy Data	Btu/hr (kcal/hr)	Gas Models 73,000 (18,390)
	BHP@100 psi	Steam Models 3.2
	kW	Electric Models 21.0
